

4 reasons to go for a luxury cruise in Halong Bay

Luxury tourism is on the up in Vietnam, and Halong Bay is set to see a big change in the way that it is discovered and explored by visitors. [Halong Bay luxury cruises](#) are certainly the way forward, and here is why that is a good thing...

1. What do you think are the reasons to go for a luxury cruise in Halong?
This is a once-in-a-lifetime trip (for most). Most people will visit Halong Bay just once, and this is one of the world's great natural beauties, so it is worth paying that little bit extra to make the most of it. If you decide to save some money and go with one of the cheaper operators, you could end up having a less than satisfactory experience which would more than tarnish your Halong Bay experience.
2. It is better for the environment
Cheap cruises and environmental conservation do not go hand in hand. Unfortunately, it is only the more luxury cruise companies, such as Paradise Cruises, that take waste disposal seriously and therefore taking a luxury cruise is also the right decision to preserve the pristine environment.
3. Food, food and food!
Fresh spring rolls with shrimp and pork – a popular Vietnamese dish on Paradise Cruises. One of the best reasons to travel in Vietnam is to experience the wonderful food, but there is also a lot of bad, cheap food across the country. Unfortunately, this is especially true in areas frequented by tourists such as Hoi An and Halong Bay- even mid-range Halong Bay tour packages can leave much to be desired in terms of what they put on the table. But offering the best luxury cruises in Halong Bay, Paradise Cruises always has spectacular menus on offer- not just great Vietnamese fare, but Western cuisine as well.
4. Sleep soundly on the high seas
Our dream bed ensures that you can sleep safe and sound with the most comfort throughout the journey.
Sleeping in your own bed is never quite right, and that feeling of discomfort is heightened on a Halong Bay overnight cruise. It is all too easy to get a bad night sleep on the Bay but with Paradise Cruises and our luxury dream beds, a bad night is simply not an option.
